

HyNet North West Hydrogen Pipeline Public Consultation

Consultation: 14th October to 19th November 2024

**HyNet North West
Hydrogen Pipeline**

Delivering clean growth

We will be holding a further consultation on proposals for Cadent's HyNet North West Hydrogen Pipeline. Information will be available from 14th October 2024.

The underground pipeline proposed would be the UK's first 100 per cent low carbon hydrogen pipeline at scale and is being developed by Cadent.

We will be consulting on plans we have amended since receiving feedback at our last stage of consultation in autumn 2022, including:

- New options for the Higher Walton and Partington HAGIs
- Updated Block Valve Installation locations
- Alternative route options avoiding the former Fiddlers Ferry Power Station
- Changes, additions and reductions to the area we are proposing.

This is likely to be the final route-wide consultation on these plans, so please take part and have your say.

Any questions? Email info@hynethydrogenpipeline.co.uk or call the project team on **0800 860 6261**.
